1. INTRODUCTION

Liz McGrath Collection (Pty) Limited trading as Cellars-Hohenort Hotel, Marine Hotel, Plettenberg Hotel three iconic hotels that exemplify South African hospitality. Unique in location, the three 5-star hotels share a philosophy of creating 'a world away from the ordinary'.

2. THE ACT

The Promotion of Access to Information Act, No 2 of 2000 ("The Act" or "PAIA") was enacted on 3 February 2000, giving effect to the right of access to any information held by Government, as well as any information held by another person who is required for the exercising or protection of any rights. This right is entrenched in the Bill of Rights in the Constitution of South Africa. Where a request is made in terms of The Act, the body to which the request is made is not obliged to release the information, except where The Act expressly provides that the information may or must be released. The Act sets out the requisite procedural issues attached to such request.

3. PURPOSE OF THE MANUAL

In order to promote effective governance of private bodies, it is necessary to ensure that everyone is empowered and educated to understand their rights in terms of The Act in order for them to exercise their rights in relation to public and private bodies.

Section 9 of The Act, however, recognizes that such right to access to information cannot be unlimited and should be subject to justifiable limitations, including, but not limited to:

- Limitations aimed at the reasonable protection of privacy;
- Commercial confidentiality; and
- Effective, efficient and good governance

And in a manner that balances that right with any other rights, including such rights contained in the Bill of Rights in the Constitution.

This PAIA Manual assist you to-

- 3.1 check the categories of records held by which are available without a person having to submit a formal PAIA request;
- 3.2 have a sufficient understanding of how to make a request for access to a record of , by providing a description of the subjects on which holds records and the categories of records held on each subject;
- 3.3 know the description of the records of which are available in accordance with any other legislation;
- 3.4 access all the relevant contact details of the Information Officer and Deputy Information Officer(s) who will assist you with the records you intend to access;
- 3.5 know the description of the guide on how to use PAIA, as updated by the Information Regulator, and how to obtain access to it;
- 3.6 know if processes personal information and the purpose of processing of personal information;
- 3.7 know the description of the categories of data subjects and the information or categories of information relating thereto;
- 3.8 know the recipients or categories of recipients to whom the personal information may be supplied;
- 3.9 know if plans to transfer or process personal information outside the Republic of South Africa and the recipients or categories of recipients to whom the personal information may be supplied; and
- 3.10 know whether has appropriate security measures to ensure the confidentiality, integrity and availability of the personal information which is to be processed.

9.4 Planned transborder flows of personal information

We transfer information to the following countries:

- United States
- Ireland

The following categories of information is transferred outside the borders of South Africa:

- Client contact details
- Client payment details
- Employee information

9.5 General description of Information Security Measures to be implemented by the responsible party to ensure the confidentiality, integrity and availability of the information

Security of Transmission

Within the Company:

- the incoming and outgoing internet traffic is monitored by a Sophos firewall.
- Emails are stored in the Microsoft O365 ecosystem, but all mails are filtered and scanned for malware via the Mimecast Secure Email Gateway. This secure email gateway automatically blocks malicious emails and encrypts sensitive email attachments.

Security of Storage

Data is currently stored locally at each site which required authentication to access (Active Directory Service). Access to the data is via role-based access control (RBAC).

Emails are stored on the Microsoft O365 servers. Individual mailboxes are password protected and further protected by 2fa/mfa.

On the local devices, hard drives are fully encrypted with Sophos Encryption. This secures the devices so data on the disk is always safe even if lost or stolen. This encryption solution is centrally managed. Setup of the passwords are unique and not the same as the device login.

Security of Processing

Data in use - frequently updated information, usually accessed by multiple users within a network.

- ESET PROTECT Entry On-Prem and Sophos IX ensures data is not compromised or altered due to any malware / ransomware on the device.
- Mimecast Secure Email Gateway scans incoming emails for any malware, rough URLs and other risks via its machine learning behavioural heuristics.
- Sophos Encryption allows users to encrypt files before emails or transporting via external drives.
- The Sophos firewall ensures high risk URLs cannot be accessed by users (e.g., Adult, Gambling content). The firewall monitors and blocks malware infections and executables and integrates up-to-date threat intelligence on malicious sites from Sophos. The firewall further stops data-stealing attacks at your network perimeter with Synchronized Security that works side-by-side with endpoint protection to automatically identify and isolate compromised systems

Data in motion – data being transferred outside the network.

- Sophos Encryption allows users to encrypt files before emails or transporting via external drives.
- Mimecast Secure Email Gateway ensures a secure email tunnel from LMC to the relevant recipients.
- Mimecast Secure Email Gateway scans incoming emails for any malware, rough URLs and other risks via its machine learning behavioural heuristics.

Date at rest - static data stored locally on hard drives that is not often accessed or modified and can be thought of as archived.

- The Sophos firewall ensures high risk URLs cannot be accessed by users (e.g., Adult, Gambling content). The firewall provides all the latest advanced technology to protect the LMC networks from botnets,

- hacks, and advanced threats with Advanced Threat Protection, IPS, sandboxing, Web and Email Protection.
- ESET PROTECT Entry On-Prem and Sophos IX ensures data is not compromised or altered due to any malware / ransomware on the device.
 - Sophos Encryption ensures data is irretrievable unless a decrypted password is entered. This is centrally managed.

Organisational Security Measures

On acquisition, new devices have their local administrator account password reset.

The Gravit8 remote monitoring and management (RMM) platform – Kaseya – monitors hardware for any signs of concern.

Departing users access is revoked on the day of departure.

Any device (whether a PC, laptop, tablet, or mobile phone), that stores company related information or accesses company related information or data, should be protected through an authentication mechanism (biometric or password).

Password complexity is as per best practise.

2FA/MFA is implemented on all platforms which have the feature available

Technical Security Minimum Requirements

All LMC devices need to have the below setup:

- ESET PROTECT Entry On-Prem;
- Sophos InterceptX;
- Sophos Full Disk Encryption;
- Mimecast Secure Email Security (S1);

Device login password

All users of LMC need to have 2FA/MFA setup to access O365 ecosystem

Updates to the Security Requirements

Remote management tool, Kaseya, which handles Mac, Windows and third-party patch management

Anti-virus and ransomware protection, ESET Anti-virus and Sophos InterceptX, auto updated and is managed by the Gravit8 SOC Team

10. REQUEST PROCEDURE FOR OBTAINING INFORMATION

Access to records held by

Records held by may be accessed by request only once the prerequisites for access have been met.

The requester must fulfil the prerequisites for access in terms of The Act, including the payment of a requested access fee.

The requester must comply with all the procedural requirements contained in The Act relating to the request for access to a record.

The requester must complete the prescribed Form 2 (Annexure B) and submit same as well as payment of a request fee and a deposit, if applicable, to the Information Officer at the postal or physical address, fax number or electronic mail address as stated herein.

The prescribed form must be filled in with enough particulars to at least enable the Information Officer to identify –

- The record or records requested;
- The identity of the requester,
- Which form of access is required, if the request is granted;
- The postal address or fax number or email address of the requester.

The requester must state that they require the information in order to exercise or protect a right, and clearly state what the nature of the right to be exercised or protected is. In addition, the requester must clearly specify why the record is necessary to exercise or protect such a right.

will process the request within 30 days, unless the requester has stated a special reason that would satisfy the Information Officer that circumstances dictate that the above time periods are not complied with.

The requester shall be informed whether access has been granted or denied in the form of Form 3 (Annexure C). If, in addition, the requester requires the reason for the decision in any other manner, they must state the manner and the particulars so required.

If a request is made on behalf of another person, then the requester must submit proof of the capacity in which the requester is making the request, to the reasonable satisfaction of the Information Officer.

If an individual is unable to complete the prescribed Form because of illiteracy or disability, such a person may make the request orally.

11. FEES

When the Information Officer receives the request, such Officer shall, by notice, require the requester to pay the prescribed request fee (if any), before any further processing of the request.

If the search for the record has been made in the preparation of the record for disclosure, including arrangements to make it available in the requested form, and it requires more than the hours prescribed in the regulation for this purpose, the Information Officer shall notify the requester to pay as a deposit the prescribed portion of the access fee which would be payable if the request is granted.

The Information Officer shall withhold a record until the requester has paid the Fees as indicated.

A requester, whose request for access to a record has been granted, must pay an access fee for reproduction and for search and preparation, and for any time reasonably required in excess of the prescribed hours to search for and prepare the record for disclosure, including making arrangements to make it available in the requested form.

If a deposit has been paid in respect of a request for access, which is refused, then the Information Officer concerned must repay the deposit to the requester.

The fees applicable to a request for information are set out in Annexure A hereto.

The requester must pay the prescribed fee before any further processing can take place.

12. GROUNDS FOR REFUSAL OF ACCESS TO INFORMATION

The main grounds for to refuse a request for information relates to the:

- Mandatory protection of the privacy of a third party that is a natural person that would involve the unreasonable disclosure of personal information of that natural person;
